

Use the patterns below with your **Master Bottles** to unlock various sounds in your DX Build Driver.

A **Blue** or **Red** color means that the peg should remain raised, while all others should be pressed in. To reset all pegs, press in the button on the front of the Master Bottle.

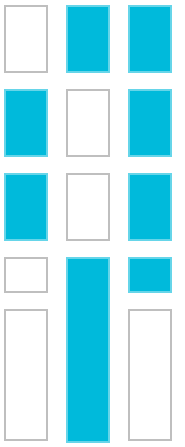

The patterns displayed in **Blue** should be used with the left-most set of pegs raised high and the **Red** should be used with the right-most set of pegs raised high.

You can raise or lower the left and right-most sets of pegs by rotating the white wheel at the bottom rear of each bottle.
